Shawn, one other thing on your splits, make sure you use a lab that can do the same analytical methods as those the PRPs are using, so the data will be comparable.

Thanks,

Subject: West Lake Landfill split sampling

Dan,

Do you know how many splits you plan to take and which lab you are using? We will probably take splits on days that you don't (including radiological) and I want to be consistent with your amount and frequency.

Thanks,
